QUIK-COOL 2 PALLET (6 Bin) HYDRO COOLER

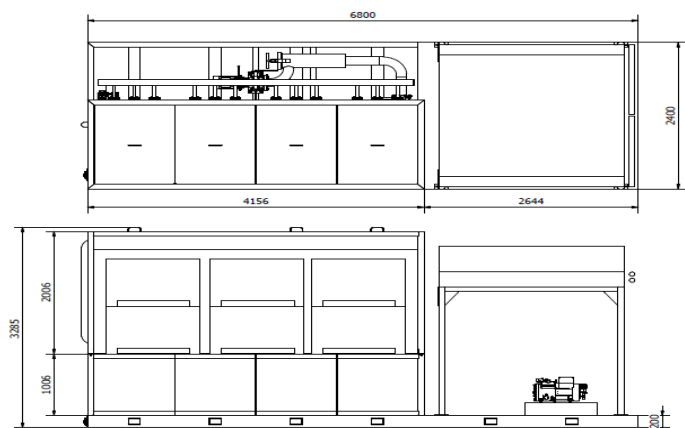

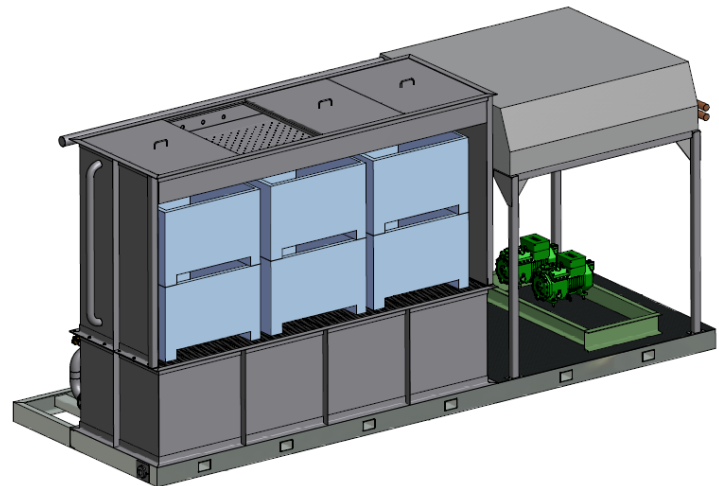

Specifically Designed For Fresh Produce

Cools fresh produce from 30°C - 2°C in 30 minutes

Hydro coolers have been used form many years in various areas of the food industry for fast effective cooling. A Quik-Cool Hydro cooler provides rapid cooling at low capital and running cost. All equipment offered is highly regarded around the world for quality and reliability.

Our Hydro cooler is designed to cool reliably without excessive removal of moisture. Compared with forced air chilling, a Hydro Cooler removes heat from freshly picked produce in a fraction of the time compared to cooling in a cool room, improving shelf life of the food and micro-organism control.

MODEL: HC-6 Bin
POWER SUPPLY: 415V / 50HZ / 100 Amp
CURRENT DRAW: 90Amps
INTERNAL USABLE HEIGHT: 1700mm
INTERNAL USABLE WIDTH: 3600mm
INTERNAL USABLE DEPTH: 1300mm
CAPACITY 2 PALLETS OR 6 X 1150 X 1150 X 800 HIGH BINS
INTERNAL 304 GRADE STAINLESS STEEL
CHILLING TIME: 25°C to 4°C IN APPROX 15 -30 MINS
OPERATING CONDITIONS: + 40°C
OPERATION PANEL: QUIK-COOL SMART TOUCH PAD
REMOTE PLANT:
COMPRESSOR: BOCK
VFD OPTIONS AVAILABLE
REFRIGERANT: 134A
ELECTRICAL CONTROL PANEL
WARRANTY: 12 MONTHS
